Hey everyone check out this
awesome NFT I just bought

Please don't screenshot it.
This is mine and I paid a lot
of money for it. I just wanted
to share please don't steal it

Liam 'Sharpy' Sharp
@LiamRSharp

Sadly I'm going to have to completely shut down my entire @DeviantArt gallery as people keep stealing my art and making NFTs. I can't - and shouldn't have to - report each one and make a case, which is consistently ignored. Sad and frustrating.

DeviantArt Protect Has Detected a Similar NFT

LiamRSharp, our image detection software has found an NFT similar to your deviation, "Minotaur."

Minotaur

Offsite NFT Image

This NFT is located on a public blockchain outside of DeviantArt and may be listed for sale on one or more NFT marketplaces. If your art's been used without permission, we suggest contacting those marketplaces to have it delisted.

Is It Real?

HOW TO SPOT FAKE NEWS

CONSIDER THE SOURCE

Click away from the story to investigate the site, its mission and its contact info.

READ BEYOND

Headlines can be outrageous in an effort to get clicks. What's the whole story?

CHECK THE AUTHOR

Do a quick search on the author. Are they credible? Are they real?

SUPPORTING SOURCES?

Click on those links. Determine if the info given actually supports the story.

CHECK THE DATE

Reposting old news stories doesn't mean they're relevant to current events.

IS IT A JOKE?

If it is too outlandish, it might be satire. Research the site and author to be sure.

CHECK YOUR BIASES

Consider if your own beliefs could affect your judgement.

ASK THE EXPERTS

Ask a librarian, or consult a fact-checking site.
