Pros and Cons of Online MM

Advantages

- Provide valuable **resources** for content to users
- Provide an easy means for one or **many authors** to quickly make web content that anyone can post, edit, update or reorganize
- People located in **different parts of the world** can work on the same document
- Widens access to the power of web publishing to **non-technical users**
- Flexible tool with no predetermined structure – which is **easy to learn** and can be used for a wide range of applications

Disadvantages

- **Lack of security** protection – even with password protection, that doesn't mean someone can't hack into it
- Many **crime cases** recently by using online multimedia content
- Easy for several people to brainstorm and collaborate on projects by adding content to a team member website, but if no one is keeping tabs on the content, it can get **confusing**
- **Cannot access the work** without an Internet connection
